

ASG CASTING

DESCRIPTION

ASG CASTING is a general casting application as well as for mould modelling. **ASG CASTING** provides reproductions that are moderate hardness which makes it suitable for carving. **ASG CASTING** is a wide variety of uses including the production of fibre reinforced cornice sections, tiles and ceiling roses.

PACKING & STORAGE

- **ASG CASTING** packed in 25 Kg +/-
- **ASG CASTING** must stored in a dry place with pallet.
- **ASG CASTING** unopened bags can be store up to 12 months in a cool dry places.

PREPARATION

The use of safety equipment such as dust mask and goggles is recommended.

CLEAN UP

All tools to be washed with clean water and wipe after each mix.

APPLICATION INSTRUCTION

Step 1

Add clean water into basket.

Step 2

Pour Casting Plaster powder and water slowly and thoroughly.

Step 3

Leave powder soaked in the water for 1-2 minutes, then stir until the mixture becomes dense without lumps. Stir for 2-4 minutes until the mixture is dense enough.

Step 4

Pour into mold while shaking it to prevent air bubbles. Flatten the mixture into the mold and leave it to dry. Remove from mold when it is completely hardened or dry.

HEALTH & SAFETY

In case of eye contact, immediately hold eyelids apart and flush eye continuously with running water. Get medical aid immediately when necessary. During installation should wear glove for personal protection.
