

# ASG SCREW #6 X 1

## DESCRIPTION

**ASG SCREW Platinum Coated Screw** is specially applied gypsum accessories, ceilings, and partitions. The size of the screw is 25mm, can be used for 9mm and 12mm thickness plasterboard or gypsum board installation.

A part of the complete range includes a full variety of plasterboard screws that are platinum coated to prevent rusting which can be a common problem with uncoated screw.

*Keep out of children's reach*
